Sample solution

Flow chart: office hurricane preparedness procedure

Organisation: Grand Anse Medical Supplies Ltd
Portfolio element: Display: Flow Chart using Word Processing Software
Scenario: chart-5

Model answer · Teacher's Version

How this meets the marking criteria

Criterion	Marks	Where it is met in this solution
Narrow margins (1.27 cm / 0.5 in) applied	**1 KC**	Page Setup: A4 landscape, all four margins 1.27 cm (Narrow); the title and the chart sit inside them.
A4 landscape orientation with the correct layout of the chart: clear flow from START to END, fitted on one page	**1 APP**	A4 landscape, one page: snake pattern in three rows from START (1 June) to END; branches kept outside the main flow.
Correct standard symbols: terminators, process rectangles and three decision diamonds (mailability d)	**1 APP**	Terminators for START and END, rectangles for the eight processes, diamonds for the three decisions (WATCH, WARNING, damage).
All 11 steps in the correct sequence; YES/NO labels on all decisions; both monitoring loops and the damage branch shown correctly (mailability e)	**1 APP**	Steps 1–11 in order; YES/NO on every decision exit; both NO loops (WATCH and WARNING) return into the top of "Monitor official weather bulletins every day" from the same side; the damage branch rejoins at "Reopen office".
Arrowed connectors that do not cross, readable safety colour scheme, centred title; free of typographical, spelling and capitalisation errors (WATCH, WARNING) (mailability a, b, f, g)	**1 APP**	No connectors cross; safety colours (orange-red decisions with red outlines, pale yellow processes, grey terminators) with black text that stays readable; title centred in bold capitals 16 pt; WATCH and WARNING in capitals as in the copy.
Total	**5**	**Every criterion is met in full.**

Files in this pack: chart-5 - Sample solution.pdf; hurricane procedure flow chart.docx.

Document page: the chart page follows this cover exactly as printed (A4 landscape, 1.27 cm margins). In the Word file the 12 shapes, the connectors and the labels form one grouped drawing, so the chart stays in place and every box can still be edited (ungroup with Shape Format › Group › Ungroup).

HURRICANE PREPAREDNESS PROCEDURE (JUNE TO NOVEMBER)
