How this meets the marking criteria

Criterion	Marks	Where it is met in this solution
Appropriate field names used (MemberID, FirstName, LastName, DateOfBirth, Squad, Parish, BestTime50Free, AnnualFee)	1	Table MEMBERS, Design View (p. 2): all 8 field names keyed exactly as in Table 1, with no spaces.
Appropriate data types, all present: Short Text for MemberID, FirstName, LastName, Squad, Parish; Date/Time for DateOfBirth; Number (Double, 2 decimal places) for BestTime50Free; Currency for AnnualFee	2	p. 2: Data Type column and the field-property summary – Short Text for MemberID, FirstName, LastName, Squad, Parish; Date/Time for DateOfBirth; Number for BestTime50Free; Currency for AnnualFee.
Table MEMBERS populated with all 14 records accurately (1 mark deducted per record with a keying error, minimum 0)	3	Datasheet View (p. 3): all 14 records keyed exactly as in Table 2 (checked value by value against the source data).
Suitable primary key selected (MemberID)	1	p. 2: key symbol beside MemberID; Indexed = Yes (No Duplicates).
Simple query Junior_Squad created with criterion Squad = "Junior" on the correct field	1	Query Junior_Squad (p. 4): "Junior" in the Criteria row under Squad; Show cleared for Squad so only the required fields appear.
Complex query Senior_Under30: criterion 1 (Squad = "Senior") entered	1	Query Senior_Under30 (p. 5): "Senior" under Squad.
Complex query Senior_Under30: criterion 2 (BestTime50Free <30) entered	1	p. 5: <30 under BestTime50Free (a value only, no currency symbol or units).
Correct use of the two criteria: both placed in the same Criteria row (AND) under the correct fields, with only the required fields shown	2	p. 5: both criteria on the same Criteria row (AND, confirmed in SQL view); Show ticked only for MemberID, FirstName, LastName, Parish, BestTime50Free; Squad used for the criterion only.
Correct results from the queries: Junior_Squad returns 5 records (MM-01, MM-04, MM-07, MM-09, MM-13); Senior_Under30 returns 4 records (MM-02, MM-05, MM-08, MM-12)	2	p. 4: Junior_Squad returns 5 records (MM-01, MM-04, MM-07, MM-09, MM-13); p. 5: Senior_Under30 returns 4 records (MM-02, MM-05, MM-08, MM-12).
Report: appropriate fields selected (MemberID, FirstName, LastName, Parish, BestTime50Free) from Senior_Under30	2	Report Gala Selection Report (pp. 6–7): record source Senior_Under30; fields MemberID, FirstName, LastName, Parish, BestTime50Free; sorted by BestTime50Free (ascending).
Report: correct, specific title (Senior Swimmers under 30.00 Seconds, 50 m Freestyle – Inter-Club Gala Selection, March 2026)	2	p. 7: report header reads "Senior Swimmers under 30.00 Seconds, 50 m Freestyle – Inter-Club Gala Selection, March 2026"; name and the label Data Management using Database Management Software in the report footer.
Total	**18**	**Every criterion is met in full.**

A Microsoft Access .accdb file cannot be produced here, so the table design, the datasheet, both queries and the report are supplied in an Excel workbook (one sheet each, with a Design sheet and a Query Design sheet), and this PDF shows every object as Access displays and prints it. To rebuild the database in Access, create the table in Design View from the Design sheet, then import the MEMBERS sheet (External Data › New Data Source › From File › Excel).

DATABASE DESCRIPTION

The MARLINS SWIM CLUB database was created for the head coach of the Morne Rouge Marlins Swim Club, St. George's, Grenada, to replace the paper records of members and their best times. Its one table, MEMBERS, holds fourteen swimmers with their date of birth, squad, parish, best 50 m freestyle time in seconds and annual fee in EC$; MemberID is the primary key because every membership number is unique. The simple query Junior_Squad lists the five members of the Junior squad, and the complex query Senior_Under30 uses two criteria in the same row (Squad "Senior" and BestTime50Free <30) to find the four senior swimmers faster than 30 seconds. The report Gala Selection Report lists these swimmers from the fastest time to the slowest as the selection for the inter-club gala in March 2026.
