How this meets the marking criteria

Criterion	Marks	Where it is met in this solution
Data source: all 7 field names present and spelt as given (Title, FirstName, LastName, Address1, District, Points, VoucherValue)	**2**	Data Source (p. 3): row 1 of worksheet Customers holds the 7 field names exactly as given – Title, FirstName, LastName, Address1, District, Points, VoucherValue – with no spaces inside a name.
Data source: all 8 records entered completely and accurately	**2**	Data Source (p. 3): rows 2–9 hold all 8 records, keyed as shown in (b) (accents, "Mr and Mrs", currency symbols and commas kept as text so they merge unchanged).
Data source saved and labelled correctly as Rewards Customers Data	**1**	Saved as **Rewards Customers Data.xlsx**; the printout carries the header "Data Source: Rewards Customers Data" and the footer label "Data Source" with the candidate's name.
Primary document: date (15 October 2026) correctly placed	**1**	Primary Document (p. 2): the date is keyed at the left margin one blank line below the letterhead, with no punctuation (open punctuation).
Primary document: inside address built from merge fields («Title» «FirstName» «LastName», «Address1», «District», Nassau)	**1**	Primary Document (p. 2): inside address lines are real MERGEFIELD codes – «Title» «FirstName» «LastName», «Address1», «District», Nassau – one item per line, no end punctuation.
Primary document: salutation with merge fields (Dear «Title» «LastName»)	**1**	Primary Document (p. 2): "Dear «Title» «LastName»" with one space between the fields and no comma; merged, it reads e.g. "Dear Ms Bell".
Primary document: body complete with merge fields «Points» and «VoucherValue» in the correct places	**1**	Primary Document (p. 2): the subject heading and body paragraphs are keyed in full with «Points», «VoucherValue» placed exactly as in (a); one blank line between paragraphs (block style).
Primary document: closing complete (Yours sincerely, signature space, Ms Renée Phillips, Customer Relations Manager, Enc)	**1**	Primary Document (p. 2): "Yours sincerely" (no comma), a four-line signature space, then the name and designation, then Enc.
Final merged document: 8 letters, one per record, each starting on a new page	**1**	Merged Documents (pp. 4–11): 8 letters, one per record in data-source order; each letter starts on a new page and fits on one A4 page.
Final merged document consistent with the data source: every letter shows its own record's data in every field (for example, Mrs Esther Fleming – 2,010 points – B$100.00)	**1**	Merged Documents (pp. 4–11): every field on every page was checked against its own record (automated text comparison of the printout) – Mrs Esther Fleming – 2,010 points – B$100.00 included.
Mailable merged letters (guidelines a, d, f): no doubled or missing spaces or punctuation around merge fields, no typographical errors	**1**	Single spaces between fields on the same line, no space before 's, punctuation kept round fields; spelling and figures proofread – every letter is mailable.
Total	**13**	**Every criterion is met in full.**

Files in this pack: merge-2 - Sample solution.pdf; Primary letter – Rewards.docx; Rewards Customers Data.xlsx; Merged letters – Rewards.docx.

The data source is supplied as an Excel workbook (Word's Type a New List saves an Access .mdb file); to run the merge again, open the primary letter and choose Mailings › Select Recipients › Use an Existing List.
