## Course registration confirmation letters

**Organisation:** Sea Cows Bay Sailing School
**Portfolio element:** Mail Merge – (a) Primary Document (b) Data Source (c) Final Merged Documents
**Scenario:** merge-5

**Model answer · Teacher's Version**

### How this meets the marking criteria

| Criterion | Marks | Where it is met in this solution |
|---|---|---|
| Data source: all 8 field names present and spelt as given (Title, FirstName, LastName, Address1, Address2, Course, StartDate, Fee) | **2** | Data Source (p. 3): row 1 of worksheet Participants holds the 8 field names exactly as given – Title, FirstName, LastName, Address1, Address2, Course, StartDate, Fee – with no spaces inside a name. |
| Data source: all 9 records entered completely and accurately | **2** | Data Source (p. 3): rows 2–10 hold all 9 records, keyed as shown in (b) (accents, "Mr and Mrs", currency symbols and commas kept as text so they merge unchanged). |
| Data source saved and labelled correctly as Sailing Participants Data | **1** | Saved as **Sailing Participants Data.xlsx**; the printout carries the header "Data Source: Sailing Participants Data" and the footer label "Data Source" with the candidate's name. |
| Primary document: date (19 October 2026) correctly placed | **1** | Primary Document (p. 2): the date is keyed at the left margin one blank line below the letterhead, with no punctuation (open punctuation). |
| Primary document: inside address built from merge fields («Title» «FirstName» «LastName», «Address1», «Address2», Tortola) | **1** | Primary Document (p. 2): inside address lines are real MERGEFIELD codes – «Title» «FirstName» «LastName», «Address1», «Address2», Tortola – one item per line, no end punctuation. |
| Primary document: salutation with merge fields (Dear «Title» «LastName») | **1** | Primary Document (p. 2): "Dear «Title» «LastName»" with one space between the fields and no comma; merged, it reads e.g. "Dear Mr Penn". |
| Primary document: body complete with merge fields «Course» (in the subject heading and the first paragraph), «StartDate» and «Fee» in the correct places | **1** | Primary Document (p. 2): the subject heading and body paragraphs are keyed in full with «Course» (2×), «StartDate», «Fee» placed exactly as in (a); one blank line between paragraphs (block style). |
| Primary document: closing complete (Yours sincerely, signature space, Mr Lloyd Fraser, Chief Instructor) | **1** | Primary Document (p. 2): "Yours sincerely" (no comma), a four-line signature space, then the name and designation. |
| Final merged document: 9 letters, one per record, each starting on a new page | **1** | Merged Documents (pp. 4–12): 9 letters, one per record in data-source order; each letter starts on a new page and fits on one A4 page. |
| Final merged document consistent with the data source: every letter shows its own record's data in every field (for example, Mrs Lucia Vanterpool – Powerboat Safety – 14 November 2026 – US$180.00) | **1** | Merged Documents (pp. 4–12): every field on every page was checked against its own record (automated text comparison of the printout) – Mrs Lucia Vanterpool – Powerboat Safety – 14 November 2026 – US$180.00 included. |
| Mailable merged letters (guidelines a, d, f): no doubled or missing spaces or punctuation around merge fields, no typographical errors | **1** | Single spaces between fields on the same line, no space before 's, punctuation kept round fields; spelling and figures proofread – every letter is mailable. |
| **Total** | **13** | **Every criterion is met in full.** |

**Files in this pack:** merge-5 - Sample solution.pdf; Primary letter – Sailing.docx; Sailing Participants Data.xlsx; Merged letters – Sailing.docx; Powerboat letters.docx.

The data source is supplied as an Excel workbook (Word's Type a New List saves an Access .mdb file); to run the merge again, open the primary letter and choose Mailings › Select Recipients › Use an Existing List. Pages 13–15 show the filtered merge (Course equal to Powerboat Safety): 3 letters, saved as Powerboat letters.
