Sample solution

Teenagers' attitudes to digital piracy

Organisation: Students aged 14–17 at three secondary schools in Jamaica (generic)
Portfolio element: EDPM Research Assignment – Research Paper
Scenario: research-6

Model answer · Teacher's Version

How this meets the marking criteria

Criterion	Marks	Where it is met in this solution
Phase 1 – Selection of topic/title: topic on teenagers' attitudes to digital piracy is focused and suitably titled	1	Title page; 1.1 (p. 1): focused topic and formal title on teenagers' attitudes to pirated music, films and software.
Permission letter to the principal of each of the three schools: formatting and layout (letterhead, date, inside address, salutation, subject heading, complimentary close, signature block)	2	Appendix A (p. 9): letterhead, date, inside address, salutation, bold subject heading, close and signature block; fully blocked, open punctuation.
Permission letter content: identifies the researchers, the school and the purpose of the research	1	Appendix A (p. 9), paragraph 1: the three researchers, the school and the purpose.
Permission letter content: states what participants will do, the confidentiality of responses and contact details	2	Appendix A (p. 9): each student present in one Form 4 class completes an anonymous 14-item questionnaire; anonymity, totals only, forms shredded; telephone and e-mail.
Schedule of activities: table with Date, Activity and Comments headings and eight activities listed; relevant sequence with comments/follow-up actions	5	Appendix B (p. 12): Date, Activity, Comments; 12 activities in order, each with a follow-up comment.
Research questions relevant to teenagers' attitudes to digital piracy and clearly stated	2	1.3 (p. 1): three numbered questions on how common piracy is, reasons for it and awareness of creators' rights.
Background: general description of digital piracy, copyright and the rights of creators; rationale highlighting the impact on local artists and creators (lost income) and on teenagers (malware, legal risk)	3	1.4 (p. 1): digital piracy, copyright and creators' economic and moral rights described; lost income for local artists, malware and legal risk explained.
Background: at least three reputable sources used	2	1.4 (p. 1): four sources cited (CXC; Small; WIPO 2016; WIPO 2020).
Purpose of research clearly stated, appropriate and relevant to the topic	2	1.5 (p. 1): one clear purpose statement tied to the research questions.
Phase 2 – Method of research identified (quantitative survey) and justified	2	2.1 (p. 2): quantitative survey named and justified.
Sampling procedure identified and described; selection of sample population (about 50 students from three schools) explained	3	2.2 (p. 2): cluster sampling described (one random Form 4 class per school, all present surveyed) and the sample of 51 from three schools explained.
Data collection instrument (questionnaire): clearly stated, well-sequenced items that address all research questions	4	2.3 (p. 2); Appendix C: anonymous 14-item questionnaire in sections mapped to the questions, with a five-point attitude scale.
Phase 3 – Findings presented in at least two different forms, each appropriately labelled and titled	4	3.1 (p. 2): ten tables, a bar chart, a pie chart and a stacked column chart, all numbered and titled.
Tables, charts and graphs show accurate data and use formulae for totals and percentages	2	COUNTIF, COUNTIFS, IF/OR, SUM and % formulae, checked by recalculation; Appendix D (p. 15); workbook Summary and Formula view sheets.
Discussion of findings aligned with the research questions with adequate supporting data	4	3.2 (p. 6): one paragraph per research question with counts and percentages.
Analysis/interpretation: relevant generalisations, linkages, connections and comparisons based on the data	3	3.3 (p. 7): contrasts attitudes with behaviour, links cost to willingness to pay and knowledge of rights to lower piracy.
Two recommendations relevant to the findings and one relevant implementation strategy	4	3.4 (p. 7): two numbered recommendations and a who/what/when strategy.
Referencing: accurate APA style, two or more references, in-text citation	6	References (p. 8): four APA 7 entries, hanging indents; citations in 1.4.
Phase 4 – Writing skills: organisation and paragraphing, use of language, spelling and grammar	4	Formal register, focused paragraphs, numbered headings; 919-word body (limit 1000).
Written report layout with four elements such as cover page, acknowledgements, table of contents, references and appendices	4	Cover page, acknowledgements, contents, page numbers, references and appendices.
Total	**60**	**Every criterion is met in full.**

Files in this pack: research-6 - Sample solution.pdf; Research report - Teenagers and digital piracy.docx; Findings data and charts - Teenagers and digital piracy.xlsx.

Phase 3 uses sample findings; every figure comes from workbook formulae, checked by recalculation. Page numbers are the report's own.

BREADFRUIT VALLEY SECONDARY

Mandeville, Manchester, Jamaica

An Investigation into the Attitudes of Teenagers in Jamaica towards Downloading and Streaming Pirated Music, Films and Software

A research paper presented to the Caribbean Examinations Council in partial fulfilment of the requirements for the Caribbean Secondary Education Certificate® (CSEC®) in Electronic Document Preparation and Management (EDPM): School-Based Assessment – Research Assignment

Prepared by

Group member	Candidate number
Shanoya Campbell	1000520014
Romario Brown	1000520021
Tajay Morrison	1000520038

School	Breadfruit Valley Secondary
Centre code	100052
Territory	Jamaica
Subject teacher	Mrs Sophia Gayle
Year of examination	2026
Date submitted	13 March 2026

Acknowledgements

We thank our EDPM teacher, Mrs Sophia Gayle, for her guidance, and the principals of Breadfruit Valley Secondary, Palmetto Point Secondary and Sea-Almond Secondary School for allowing us to survey a Form 4 class at each school.

We are grateful to the form teachers who gave up a form period and to the 51 students who answered honestly. We also thank our parents for transport to the other two schools.

Phase 1: Planning the Research

1.1 Topic and Title

Local musicians and film makers say that piracy reduces their earnings, while many teenagers stream films from unofficial websites or download cracked games and software. The group therefore chose the title: *An Investigation into the Attitudes of Teenagers in Jamaica towards Downloading and Streaming Pirated Music, Films and Software*.

1.2 Permission and Schedule of Activities

Permission letters were sent to the principals of the three schools (Appendix A). The schedule of activities (Appendix B) lists 12 activities from 6 January to 13 March 2026.

1.3 Research Questions

1. How common is the downloading or streaming of pirated music, films and software among teenagers aged 14 to 17 in Jamaica?
2. What are the main reasons teenagers give for using pirated content?
3. How aware are teenagers of copyright and the economic rights of creators?

1.4 Background

Digital piracy is the unauthorised copying, downloading or streaming of copyrighted music, films, games or software. Copyright protects original works and gives creators economic rights, to control copying and distribution and to earn from their work, and moral rights, such as being named as the author (World Intellectual Property Organization [WIPO], 2016, 2020). Publishers and distributors help secure producers' income, so piracy affects the whole creative chain (Caribbean Examinations Council [CXC], 2024; Small, 2026).

Each pirated download is a sale or stream that earns a local artist nothing, reducing income from small Caribbean markets (WIPO, 2016). Teenagers also face risks: files from unofficial sources may carry malware, and copyright infringement can lead to legal action (CXC, 2024).

1.5 Purpose of the Research

This study aims to measure how common piracy is among teenagers, identify their reasons and test their knowledge of creators' rights, so that schools can plan copyright awareness activities.

Phase 2: Method of Investigation

2.1 Type of Research

A quantitative survey was used because an anonymous questionnaire produces counts and percentages that can be compared across three schools, and a five-point scale turns attitudes into numbers that can be charted.

2.2 Population and Sampling Procedure

The population was students aged 14 to 17 at three secondary schools in Manchester, St Elizabeth and Clarendon. Cluster sampling selects whole groups rather than individuals: at each school one Form 4 class was drawn at random, and every student present was surveyed. This gave 51 students (Table 1, Table 2), and surveying whole classes in form periods was practical across three schools.

2.3 Data Collection Instrument and Procedure

The anonymous questionnaire (Appendix C) has 14 items: Section B answers Research Question 1, Item 5 Research Question 2, and Sections C and D Research Question 3, using a five-point agree–disagree scale for attitudes. No item asks students to name a website. It was completed in form periods from 2 to 6 February 2026.

Phase 3: Presentation and Discussion of Findings

3.1 Presentation of Findings

Answers were entered in Microsoft Excel and summarised with COUNTIF, COUNTIFS, IF, SUM and percentage formulae (Appendix D).

Table 1

Respondents by School

School	Students	% of students
School A	17	33.3%
School B	16	31.4%
School C	18	35.3%
Total	**51**	**100.0%**

Note. Schools are identified by letter only. Counts by COUNTIF; % = count ÷ n (Appendix D).

Table 2

Respondents by Age (Item 1)

Age	Students	% of students
14 years	9	17.6%
15 years	30	58.8%
16 years	10	19.6%
17 years	2	3.9%
Total	**51**	**100.0%**

Note. n = 51. Counts calculated with COUNTIF and percentages with =count/n in Excel (see Appendix D).

Table 3

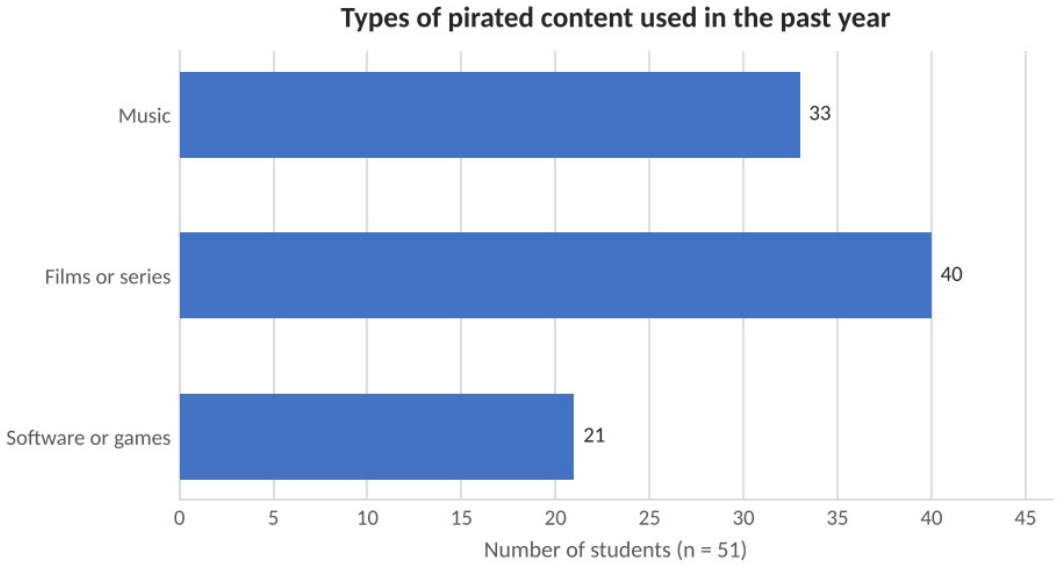

Use of Pirated Content in the Past Year, by Type (Item 4)

Type of content	Never	Once or twice	Monthly	Weekly or more	Used at least once	% who used it
Music	18	10	11	12	33	64.7%
Films or series	11	9	14	17	40	78.4%
Software or games	30	9	7	5	21	41.2%
Any of the three types	7	–	–	–	44	86.3%

Note. n = 51. Used at least once = Once or twice + Monthly + Weekly or more; “Any” row: Never column = students who used none, using an IF(OR( )) helper column.

Figure 1

Types of Pirated Content Used in the Past Year

Note. Number of students who used each type at least once (from Table 3).

Table 4

Students Who Used Any Pirated Content, by School

School	Students	Used pirated content	% who used it
School A	17	16	94.1%
School B	16	13	81.3%
School C	18	15	83.3%
Total	**51**	**44**	**86.3%**

Note. Counts by COUNTIF and COUNTIFS; % = users ÷ students in the row.

Table 5

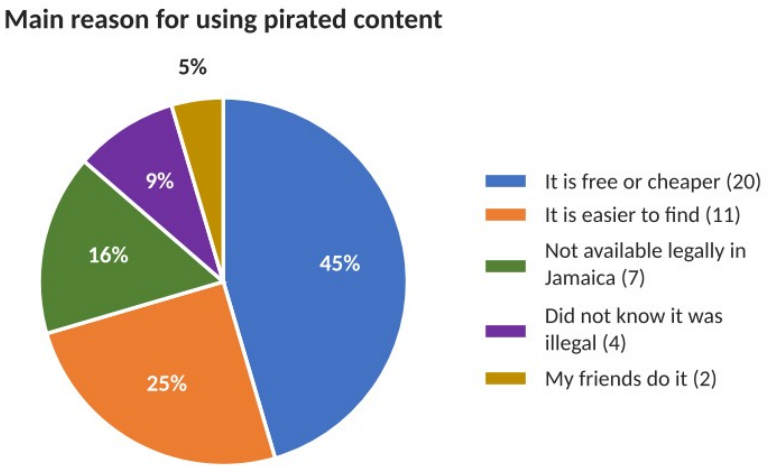

Main Reason for Using Pirated Content (Item 5)

Main reason	Students	% of those who used it
It is free or cheaper	20	45.5%
It is easier to find	11	25.0%
Not available legally in Jamaica	7	15.9%
Did not know it was illegal	4	9.1%
My friends do it	2	4.5%
Total	**44**	**100.0%**

Note. Only the 44 students who used pirated content answered; % = count ÷ total (SUM).

Figure 2

Main Reason for Using Pirated Content

Note. Share of the 44 students who used pirated content (from Table 5).

Table 6

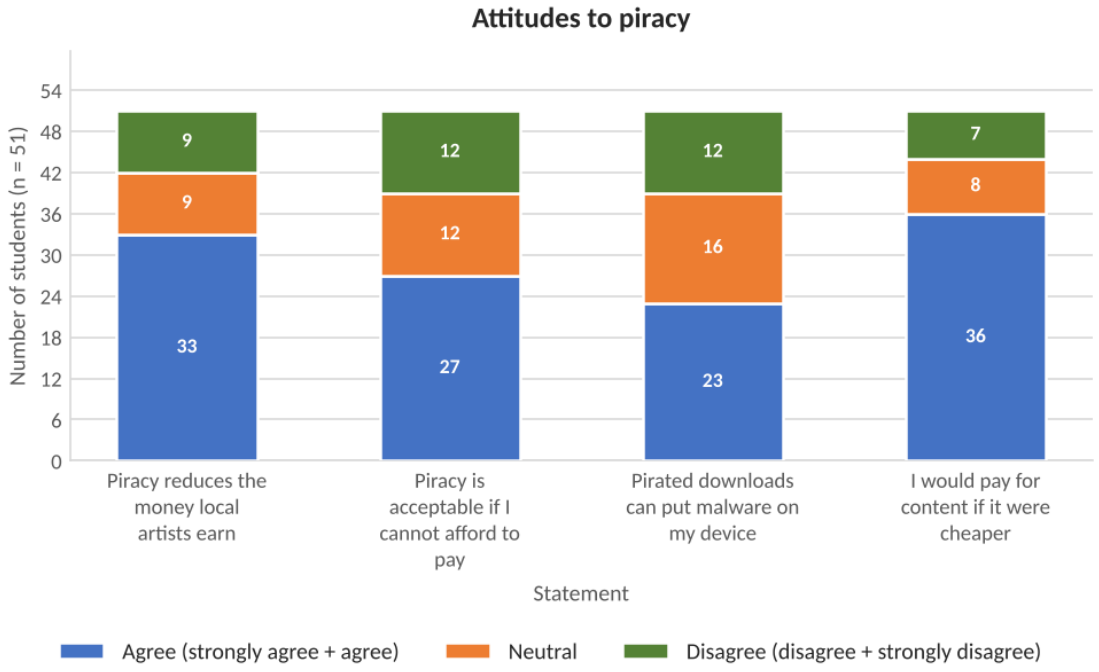

Attitudes to Piracy (Items 6–9)

Statement	Strongly agree	Agree	Neutral	Disagree	Strongly disagree	Agree (total)	Disagree (total)	% agreeing
Piracy reduces the money local artists earn	14	19	9	6	3	33	9	64.7%
Piracy is acceptable if I cannot afford to pay	10	17	12	8	4	27	12	52.9%
Pirated downloads can put malware on my device	8	15	16	8	4	23	12	45.1%
I would pay for content if it were cheaper	16	20	8	5	2	36	7	70.6%

Note. n = 51. Agree (total) = strongly agree + agree; Disagree (total) = disagree + strongly disagree; % agreeing = Agree (total) ÷ n.

Figure 3

Students' Attitudes to Piracy

Note. Number of students agreeing, neutral or disagreeing with each statement (from Table 6).

Table 7

Knowledge of Copyright (Items 10–12)

Statement	Correct answer	Students correct	% correct
Creators have the right to be paid when their work is copied or sold	True	28	54.9%
Creators have the right to be named as the author of their work	True	22	43.1%
Copying a song for a friend is legal if you do not charge money	False	15	29.4%

Note. n = 51. Counts calculated with COUNTIF and percentages with =count/n in Excel (see Appendix D).

Table 8

Use of Pirated Content by Knowledge of Creators' Economic Rights (Items 4 and 10)

Answer to Item 10	Students	Used pirated content	% who used it
True	28	22	78.6%
False	16	15	93.8%
Not sure	7	7	100.0%
Total	**51**	**44**	**86.3%**

Note. Counts by COUNTIF and COUNTIFS; % = users ÷ students in the row.

Table 9

Legal Ways of Getting Music and Films That Students Know (Item 13)

Legal option	Students	% of students
Local radio and TV	41	80.4%
Official artist channels on video sites	39	76.5%
Legal streaming services (free or paid)	34	66.7%
Buying downloads	18	35.3%
None of these	3	5.9%

Note. n = 51. Counts calculated with COUNTIF and percentages with =count/n in Excel (see Appendix D).

Table 10

Malware or Unwanted Pop-ups After a Download in the Past Year (Item 14)

Answer	Students	% of students
Yes	17	33.3%
No	26	51.0%
Not sure	8	15.7%
Total	**51**	**100.0%**

Note. n = 51. Counts calculated with COUNTIF and percentages with =count/n in Excel (see Appendix D).

3.2 Discussion of Findings

Research Question 1. Piracy is very common: 44 of the 51 students (86.3%) used pirated content in the past year (Table 3). Films and series were pirated most (40 students), then music (33) and software or games (21) (Figure 1). The rate was similar at all three schools (81% to 94%) (Table 4).

Research Question 2. Cost was the main reason (20 of 44 users, 45.5%), followed by convenience (11) and content not being available legally in Jamaica (7); only 4 did not know it was illegal (Table 5, Figure 2).

Research Question 3. Most students agreed that piracy reduces local artists' income (64.7%), yet 52.9% felt it is acceptable when they cannot afford to pay and only 45.1% recognised the malware risk (Table 6, Figure 3). Just 54.9% knew the economic right to be paid, 43.1% the moral right to be named and 29.4% that copying for a friend is illegal (Table 7).

3.3 Analysis and Interpretation

There is a clear gap between attitude and behaviour: most students know piracy harms artists but pirate anyway, mainly because of cost, and 70.6% would pay if content were cheaper. Knowledge appears to reduce piracy: 78.6% of students who knew the economic right used pirated content, compared with 93.8% of those who answered "false" (Table 8). Risks are real: 17 students (33.3%) had malware or pop-ups after a download (Table 10). Generally, piracy is driven by price and weak copyright knowledge rather than ignorance of the law, and most students already know legal options such as official artist channels (39) (Table 9).

3.4 Recommendations and Implementation Strategy

1. Schools should teach copyright, creators' economic and moral rights and the malware risks of unofficial downloads, inviting local artists to explain how piracy affects their income.
2. Schools should publicise free and low-cost legal options, such as official artist channels and legal streaming services, so that cost is no longer the main reason for piracy.

Implementation strategy: In April 2026 the EDPM and ICT departments of the three schools will plan a joint "Respect the Creator" assembly with a local musician, held at each school by 29 May 2026. Form teachers will share a one-page guide to legal options, and the group will repeat the survey in November 2026.

Conclusion

Piracy, especially of films and series, is common among teenagers at all three schools. Students pirate mainly to save money, even though most accept that it harms local artists, and many do not know creators' rights. Teaching copyright and promoting affordable legal options should reduce piracy and protect Caribbean creators.

12 January 2026

Mr Desmond Walker
Principal
Breadfruit Valley Secondary
Caledonia Road
Mandeville
MANCHESTER
JAMAICA

Dear Mr Walker

REQUEST FOR PERMISSION TO SURVEY ONE FORM 4 CLASS ABOUT DIGITAL PIRACY

We are Shanoya Campbell, Romario Brown and Tajay Morrison, Form 5 students of Breadfruit Valley Secondary. For our CSEC Electronic Document Preparation and Management (EDPM) School-Based Assessment we are investigating the attitudes of teenagers in Jamaica towards downloading and streaming pirated music, films and software.

The purpose of the study is to find out how common piracy is among students aged 14 to 17, why they use pirated content and how well they understand the rights of creators, so that schools can plan copyright awareness activities.

We request permission to survey one Form 4 class at Breadfruit Valley Secondary, chosen at random, during a form period between 2 and 6 February 2026. Each student present would complete an anonymous questionnaire of 14 tick-box items, which takes about 15 minutes.

Taking part is voluntary. Students will not write their names, will not be asked to name any website, and no answer will be reported to the school. Results will be reported only as totals for each school, identified by a letter, and the forms will be shredded after our report has been marked.

If you have any questions, please contact me at (876) 555-0174 or shanoya.campbell@breadfruitvalley.edu.jm, or our EDPM teacher, Mrs Sophia Gayle, at (876) 555-0158. A copy of the questionnaire is enclosed. Thank you for considering our request.

Yours sincerely

Shanoya Campbell
Group Leader, Form 5 EDPM Research Group

Appendix B: Schedule of Activities (Workplan)

The group followed this schedule of activities from January to March 2026.

Date	Activity	Comments / follow-up action
6 Jan 2026	Formed the group, chose the topic and agreed the title	Teacher approved the title on 8 January.
7–9 Jan 2026	Read background sources; wrote the research questions	Recorded full APA details of each source.
12 Jan 2026	Sent three permission letters, one to each principal	Two replies by 16 January; Palmetto Point followed up by telephone and agreed on 21 January.
13–20 Jan 2026	Designed the anonymous questionnaire	Teacher checked that no item asks for website names.
22 Jan 2026	Chose one Form 4 class at each school at random	Class names drawn from a hat by each school’s vice-principal.
26 Jan 2026	Pilot-tested the questionnaire with four Form 3 students	Added the definition of “pirated content” to the instructions.
2–6 Feb 2026	Surveyed the three classes during form periods	51 students present and surveyed; forms sealed by school.
9–13 Feb 2026	Entered data in Excel; built formulae, tables and charts	Each entry checked twice.
16–20 Feb 2026	Wrote the discussion, analysis and recommendations	Compared the three schools.
23 Feb–4 Mar 2026	Wrote the first draft; teacher feedback	Checked every citation.
9–11 Mar 2026	Final edit; references, contents page and appendices	Checked APA style and word count.
13 Mar 2026	Submitted the report	Summary sent to all three principals.

Appendix C: Questionnaire

Questionnaire: Music, Films and Software – How Do You Get Them?

We are Form 5 students carrying out research for our CSEC EDPM School-Based Assessment. This questionnaire is **anonymous**: do not write your name, and do **not** name any website. Answers will be reported only as totals. Tick ONE box unless the question says "tick all that apply".
Pirated content means music, films, series, games or software downloaded or streamed from an unofficial source without paying the creator or buying a licence.

Section A: About you

1. How old are you?
   ☐ 14 ☐ 15 ☐ 16 ☐ 17

2. School code (completed by the researcher): _____

3. Which devices do you own? (Tick all that apply.)
   ☐ Smartphone ☐ Tablet ☐ Smart TV or streaming box
   ☐ Laptop or desktop ☐ Games console

Section B: Use of pirated content

4. In the past year, how often have you downloaded or streamed pirated:

	Never	Once or twice	Monthly	Weekly or more
(a) Music	☐	☐	☐	☐
(b) Films or series	☐	☐	☐	☐
(c) Software or games	☐	☐	☐	☐

5. If you have used pirated content, what is your MAIN reason?
   ☐ It is free or cheaper ☐ Did not know it was illegal
   ☐ It is easier to find ☐ My friends do it
   ☐ Not available legally in Jamaica

Section C: Your views

6–9. How much do you agree with each statement?

	Strongly agree	Agree	Neutral	Disagree	Strongly disagree
6. Piracy reduces the money local artists earn	☐	☐	☐	☐	☐
7. Piracy is acceptable if I cannot afford to pay	☐	☐	☐	☐	☐
8. Pirated downloads can put malware on my device	☐	☐	☐	☐	☐
9. I would pay for content if it were cheaper	☐	☐	☐	☐	☐

Section D: Copyright

10. True or false? “Creators have the right to be paid when their work is copied or sold.”
    ☐ True ☐ False ☐ Not sure

11. True or false? “Creators have the right to be named as the author of their work.”
    ☐ True ☐ False ☐ Not sure

12. True or false? “Copying a song for a friend is legal if you do not charge money.”
    ☐ True ☐ False ☐ Not sure

13. Which legal ways of getting music and films do you know? (Tick all that apply.)
    ☐ Local radio and TV
    ☐ Official artist channels on video sites
    ☐ Legal streaming services (free or paid)
    ☐ Buying downloads
    ☐ None of these

14. In the past year, has a device you use shown malware or unwanted pop-ups after a download?
    ☐ Yes ☐ No ☐ Not sure

Thank you. Please fold your form and place it in the envelope.

Appendix D: Spreadsheet Formulae

The findings were entered in Microsoft Excel (sheet *Responses*, one row per student) and summarised on the *Summary* sheet. Every count, total, average and percentage in the tables and charts is calculated by a formula; the main formulae are listed below (cell references are on the *Summary* sheet).

Table	Column / item	Cell	Formula
–	Number of students	B3	=COUNTA(Responses!$A$2:$A$52)
Table 1	Students (first row, then copied down)	B7	=COUNTIF(Responses!$B$2:$B$52,"School A")
Table 1	% of students (first row, then copied down)	C7	=B7/Summary!$B$3
Table 1	Students (total row)	B10	=SUM(B7:B9)
Table 1	% of students (total row)	C10	=B10/B$10
Table 2	Students (first row, then copied down)	B14	=COUNTIF(Responses!$C$2:$C$52,14)
Table 2	% of students (first row, then copied down)	C14	=B14/Summary!$B$3
Table 2	Students (total row)	B18	=SUM(B14:B17)
Table 2	% of students (total row)	C18	=B18/B$18
Table 3	Never (first row, then copied down)	B22	=COUNTIF(Responses!$I$2:$I$52,"Never")
Table 3	Once or twice (first row, then copied down)	C22	=COUNTIF(Responses!$I$2:$I$52,"Once or twice")
Table 3	Monthly (first row, then copied down)	D22	=COUNTIF(Responses!$I$2:$I$52,"Monthly")
Table 3	Weekly or more (first row, then copied down)	E22	=COUNTIF(Responses!$I$2:$I$52,"Weekly or more")
Table 3	Used at least once (first row, then copied down)	F22	=C22+D22+E22
