Sample solution

Model answer · Teacher's Version

Produce sold by crop, October 2025 to March 2026

Hillcrest Growers' Co-operative, St. Elizabeth, Jamaica

Ruled Tabulation using Spreadsheet Software

In this download: Produce Sold.xlsx · ruled-8 - Sample solution.pdf

The **Table** sheet prints on one A4 landscape page, centred horizontally, with the candidate's name and the label in the footer. The **Formulas** sheet is the formula view (Show Formulas, with gridlines and row and column headings) and prints on page 2.

How this meets the marking criteria

Criterion	Marks	Where it is met in this answer
Selection of appropriate software tool	1 KC	Keyed into Excel worksheet cells on the sheet **Table** (no text boxes or Word table); the main heading is merged and centred across A1:G1.
Present slanted headings	1 APP	The columnar headings in B3:G3 are set vertically at 90° (Format Cells › Alignment › Orientation) and stay readable; group headings merged and centred: October–December 2025 over B2:C2; January–March 2026 over D2:E2; Six-Month Total over F2:G2.
Present harmonious colour scheme	1 APP	A harmonious scheme of three related earth colours only – dark brown (#4E342E) for the main heading, leaf green (#558B2F) with white text for the three group headings and the ALL CROPS row, and pale sand (#EFEBE0) for the columnar headings and alternate crop rows.
Present accurate information	1 APP	All 8 rows keyed exactly and sorted in descending order of Six-Month Total Value (J$) (Irish Potato first, Cabbage last), ALL CROPS kept last; Six-Month Total Kilograms by =SUM(B4,D4); Six-Month Total Value (J$) by =SUM(C4,E4); ALL CROPS row by =SUM(...) on every numeric column. Every figure was checked against a LibreOffice recalculation: all eight crops keyed in exactly; Six-Month Totals correct; crops sorted by Six-Month Total Value, highest first (Irish Potato first, Cabbage last); ALL CROPS row correct (149,610 kg worth J$34,115,825 over six months).
Total	**4**	Every criterion is visibly met; all figures were checked by recalculation.

HILLCREST GROWERS' CO-OPERATIVE – PRODUCE SOLD BY CROP, OCTOBER 2025 TO MARCH 2026						
	October–December 2025		January–March 2026		Six-Month Total	
Crop	Kilograms	Value (J$)	Kilograms	Value (J$)	Kilograms	Value (J$)
Irish Potato	18,450	3,690,000	21,300	4,366,500	39,750	8,056,500
Yellow Yam	14,600	3,066,000	12,950	2,849,000	27,550	5,915,000
Tomato	6,150	2,152,500	5,820	2,182,500	11,970	4,335,000
Escallion	3,940	1,970,000	4,210	2,315,500	8,150	4,285,500
Sweet Potato	9,820	1,571,200	11,240	1,854,600	21,060	3,425,800
Sweet Pepper	2,860	1,430,000	3,075	1,691,250	5,935	3,121,250
Carrot	7,340	1,174,400	8,115	1,338,975	15,455	2,513,375
Cabbage	10,280	1,233,600	9,460	1,229,800	19,740	2,463,400
ALL CROPS	**73,440**	**16,287,700**	**76,170**	**17,828,125**	**149,610**	**34,115,825**

Values are in Jamaican dollars (J$). Crops are ranked by Six-Month Total Value, highest first.
